

Overview

Tauro CP is a private investment firm that creates, develops and invests in companies with high value creation potential in the natural resources and mid-stream energy sectors in Mexico.

Tauro CP was formed in 2013 to leverage the proven successes and unique blend of skills of its founding partners. An experienced and collaborative team, the partners have worked closely together since 2005 in New York and Mexico City.

The Tauro Advantage

We are not a typical private equity firm. Once we identify market opportunities, we invest personal resources and funds to determine feasibility and potential prior to seeking funds from our limited and institutional partners.

“We believe in accountability and aligning our interests with those of our investors.”

Investment Focus

Tauro brings a hands-on institutional management approach to its capital allocation process, creating long-term value for its investors, employees and community. We pursue platform endeavors that provide opportunities for attractive organic and acquisitive growth.

Mining Services

Industrial Sand

Aggregates

Mid-Stream Energy

Investment Criteria

Attractive Growth	Top-line growth, cost reduction initiatives and selective consolidation opportunities.
Established Business	Proven record of accomplishment with available historical financial and operating data.
Institutional Ownership	We seek partners that embrace value creation by enhancing institutional controls, governance and access to capital to fund growth.

Investment Structure Considerations

Type	Controlling or minority equity positions, joint venture, mezzanine debt, convertible debt
Size	\$5 - \$50 million target investment range
Term	3 – 7 years
